Had a fantastic time yesterday at our virtual Christmas party hosted by [ART SIPPERS](#).

Haven't picked up a paintbrush in years, but it was a great way to reconnect to my creative side, switch off and learn something new. It's spurred me to go and buy more materials, so I paint some more.

[Elliot](#), you were totally right about getting in the zone when you're doing it. You are so focused on painting and following along that your mind doesn't have time to think about anything else. Great way to close off the year. 🎨

Highly recommend!

We had a virtual experience with Art Sippers for our company Christmas Party and it was absolutely brilliant! Josie & Elliot's energy was infectious and created a brilliant atmosphere getting everyone involved, even though we were all at home, felt like we were with them! So much fun, 100% recommend!

Yo guys it's man like Mac Davis who was part of the WhiteHat crew on Thursday. Wanted to say thank you and that you guys killed it. I was cracking up 24/7 and loved it. No parties coming up but will be telling everyone about you where relevant! Keep it up, big ups!

Thank you both so much for all four of the wonderful online experiences you have created for us. They really have been such a joy to be a part of and I can't thank you enough for delivering them for us across the Museum's social channels.

Just wanted to say a HUGE thank you to you both for making our ArtSippers party an awesome success! The team were definitely pleasantly surprised (so that was a relief). They were all fantastically engaged - thanks to you both for that and we are all super proud of their paintings (well most of us anyway). ;)

The team had been raving about it all evening to other colleagues and even mentioned how you both had set the mood and led the session... Again, many thanks and hoping we can use ArtSippers again in the future! Merry Christmas from us all! Anil
